

# **DVR Client Installation Manual**

## Software Installation

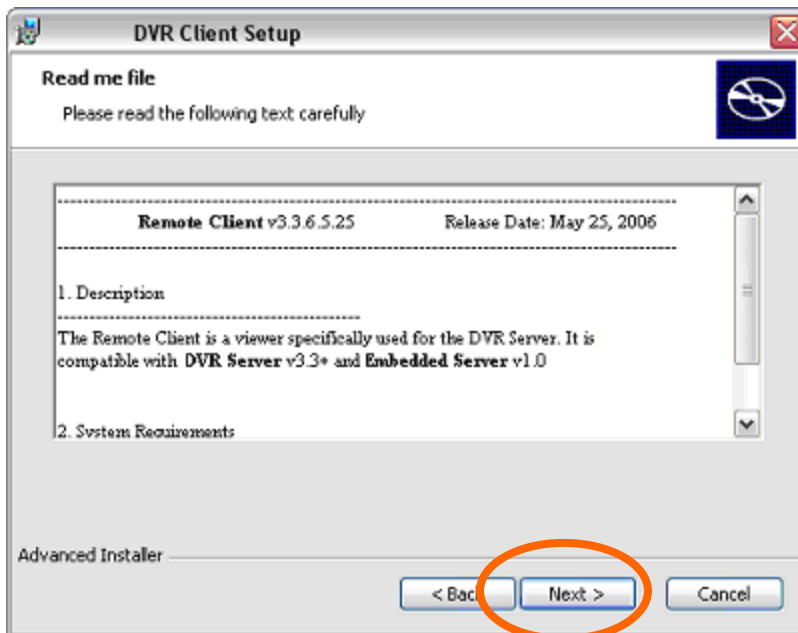

**Step 1:** Insert the **DVR** installer CD in the PC CD-ROM. The **Remote Client Installer** will execute automatically. Select language to install then click **Install** button.

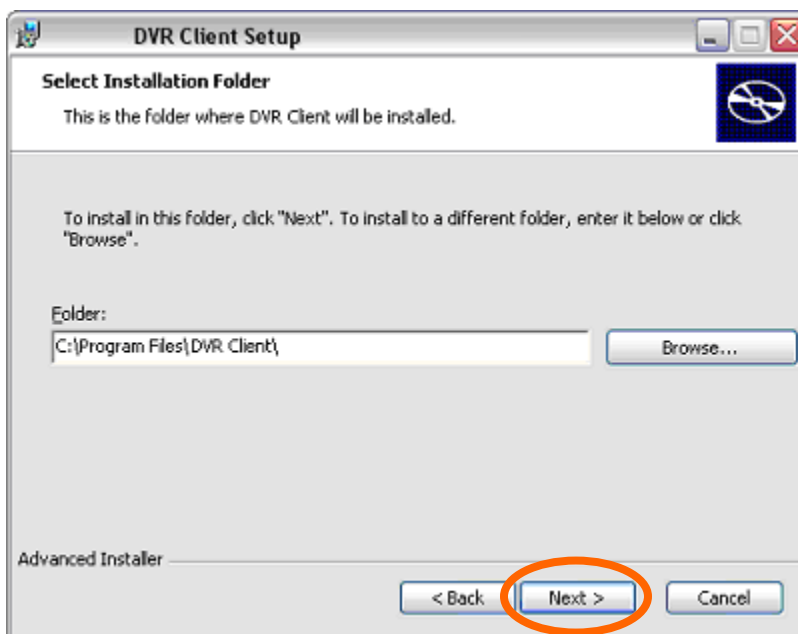

**Step 2:** Click on the **Next** button.

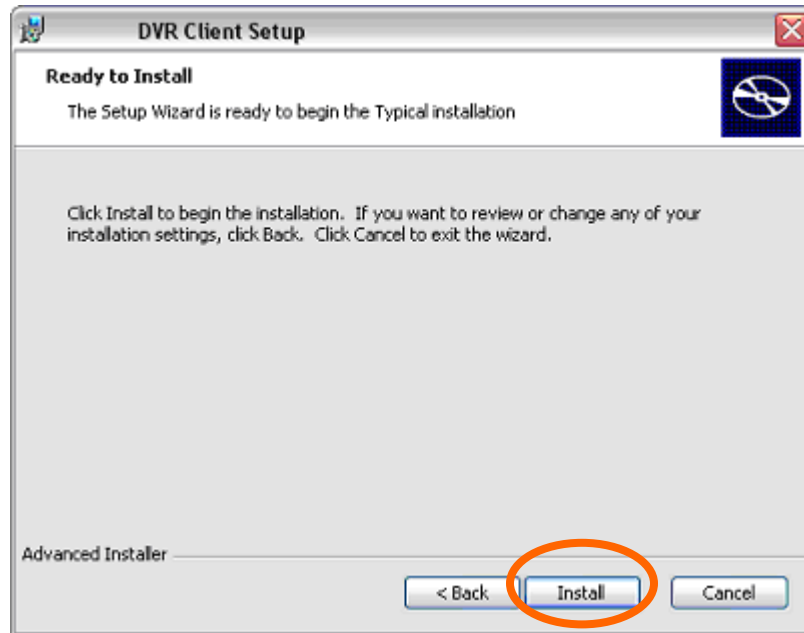

**Step 3:** Read the notes then click **Next**.

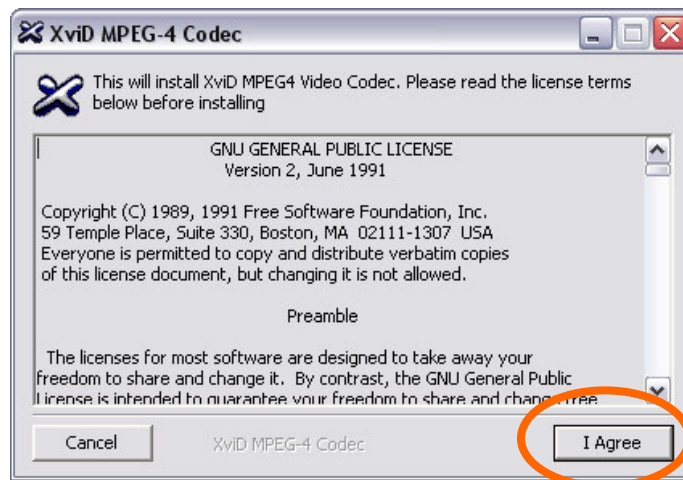

**Step 4:** Choose an installation folder and click **Next** to continue.

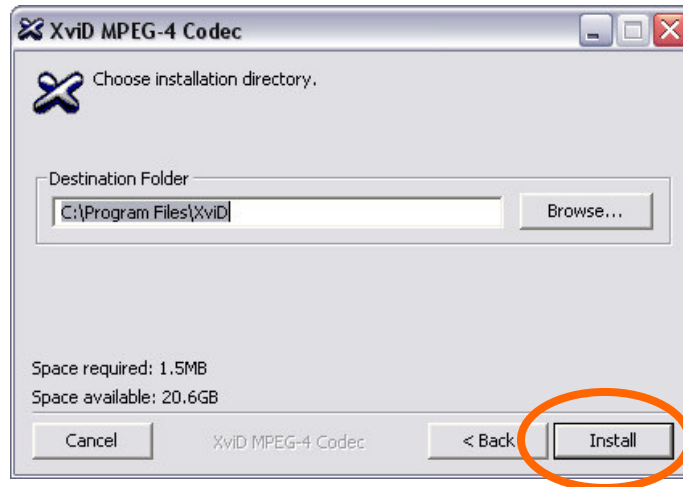

**Step 5:** Click **Install** to install **DVR Client**.

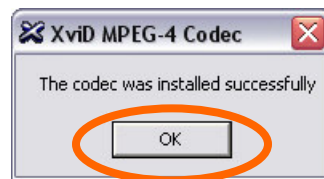

**Step 6:** **XviD MPEG-4 Video Codec** installation window will open. Read the license terms then click **I Agree**.

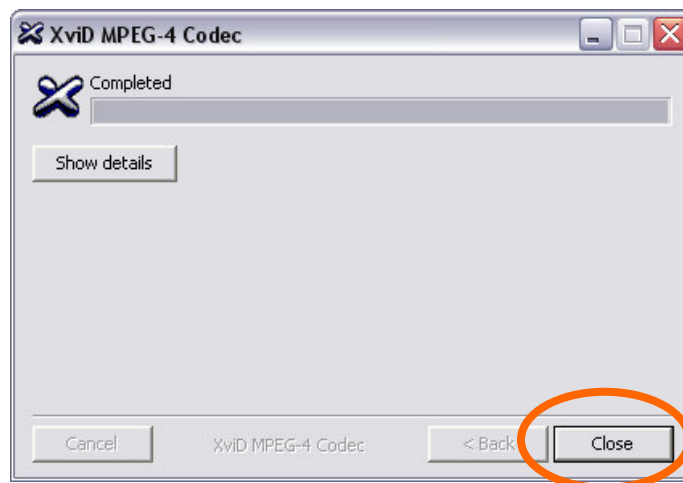

**Step 7:** Choose installation directory then click **Install**.

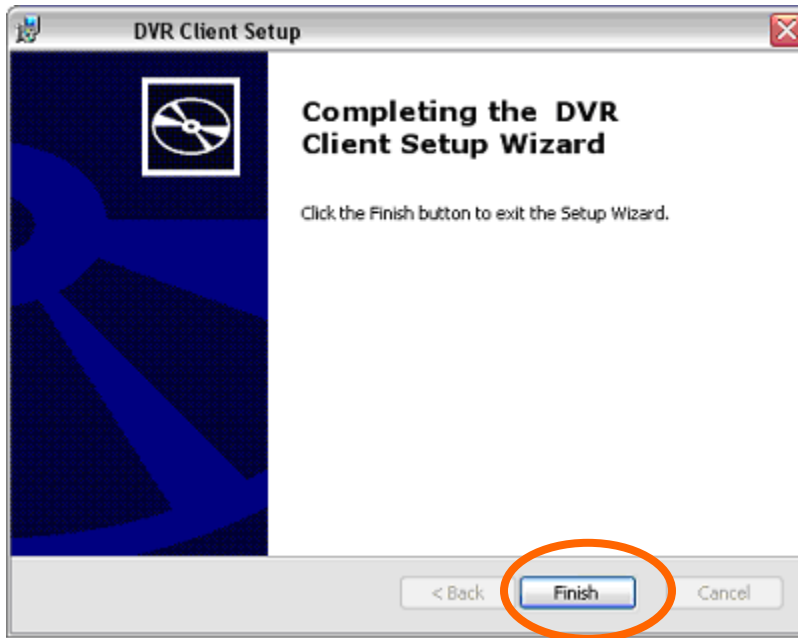

**Step 8:** Click **OK** after successfully installing **XviD MPEG-4 Codec**.

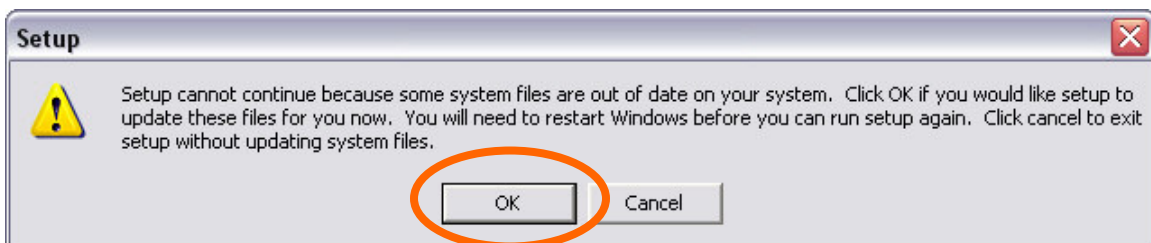

**Step 9:** Click **Close** to continue.

**Step 10:** Click **Finish** to continue after successfully installing **DVR Client**.

**Step11:** Click **OK** if prompted to update system files.

**Step 12:** Click **Yes** to reboot.
